INTERESTS

- E-com
- BlockChain
- Gym
- Boxing

I am a Self-Taught Frontend web developer who likes to create new types of designs that attract the users more And I try to keep the user experience friendly. The attitude of working quickly with my CEO in a short span of time helped me a lot to grow the Shoupgram Startup.

Eager to work in fast paced work environment, open to work remotely or relocate to work location.

EXPERIENCE

October 2021 to January 2022

front end developer & Adviser *Shoupgram - e commarce website*, gwalior

- Engaged with clients to plan and optimize site issues and queries.
- Discussed site and app requirements with customers to produce actionable development plans.
- Didn't just develop the websites,but also patterned with shops.
- Also lead marketing there from,making plans,actionable to acting over those.

PERSNOL PROJECTS

YouTube

- A Youtube website where you can sign in and signout with help of google outh,Here you can see your subscribed channels and also can see the history of recently liked videos. You can also like, comment and search the videos here and You can also see the information of the channels and the information of the videos and much more.
- designed developed frontend in accordance to YouTube's Api and Google auth.
- Learnt Google Auth and implemented them in the project.
- Totally responsive design made from imagination.

Foodo- The Meal Finder

- In this you can add recipes to your Favorite. You can search for recipes and if you want, you can also look in the popular meals Section.
- Built a Frontend application with Api from The MealDb .

- only vanilla java script and scss implemented in the project.
- Totally responsive design made from imagination.

Dukan

- I created a landing page similar to Dukan website.
- React and scss implemented in the project.
- Made as responsive as the Dukan.

I have made many other types of projects with the help of React Redux and Vanilla Java Script

EDUCATION

Dropped Out, To Pursue A Career in Software Development
saraswati shishu mandir, pichhore

I completed 12th PCM later I did BA in Devi Ahilya Bai University but dropped in 2nd year, then I helped my neighbour in startup
